Statistics professor **JEFF ROSENTHAL** is an outstanding teacher who is recognized for his innovative teaching methods. His recent book, *Struck by Lightning*:

the Curious World of Probabilities, which made Maclean's national bestsellers list, makes statistics and probability accessible and entertaining to the general public.

KEREN RICE is a professor of linguistics, director of the Aboriginal studies program, and a recipient of the 2006 President's Teaching Award. Much of her

work is closely connected with First Nations House, which provides academic services, programs and cultural events for Aboriginal students at U of T.

Third-year student **LUIS OKAMOTO** is an international student from Peru, currently studying in the Latin American studies

program. He is a member of Victoria College and is an active member at the International Student Centre.

Fourth-year artificial intelligence student **SHIRIN SOHRABIARAGHI** selected U of T for its outstanding reputation in research. She plans to continue her graduate work in the

Master's program in computer science at U of T this fall. Shirin has been on the Dean's list for three years, and is a multiple recipient of Arts and Science in-course scholarships.
